

Indian Statistical Institute SQC & OR Unit, Hyderabad

Announces

National Conference

on

Recent Advancements in Machine Learning and Artificial Intelligence

with a focus on Applications for Business Excellence

(NCRAMLAI 2025)

On

29th June 2025

Celebrating **132nd** Birth Anniversary of Professor P C Mahalanobis and Statistics Day

Artificial Intelligence powered by Machine Learning Algorithms is redefining every aspect of our universe. In almost every task AI is making its presence primarily due to the thrust and importance laid by the Government of India and duly being adopted by all the entities of our system including business houses. Availability of large data, efficient computing platforms, power of Statistical Methods and Machine Learning Algorithms has opened up opportunities for applications and research in the related areas. Earlier expectations were limited to customer satisfaction but now-a-days "Customer Delight" is becoming a norm. This undoubtedly has thrown a challenge to the systems in a society as a whole and business houses in particular to strive towards achieving excellence.

This one-day National conference is conceived with keeping the above paradigm shift (even termed as Disruption) in mind to bring the critical players, Corporate Professionals, Academicians and Students on to one platform to share/discuss their applications/research and go back with new knowledge and motivation. Invited talks, Paper Presentations by delegates, Discussions will form the platform for knowledge sharing and development.

Venue : Conference Hall, Indian Statistical Institute, Street No-8, Habsiguda, Hyderabad - 500007
